Dear Waylon, Che, and Divina,

Thank you for supporting our magnificent event on Friday.

It was a great success. People within the local community, neighbors and gym members alike appreciated the installation, and the exercise class was a great hit. (In fact people asked us if we could not repeat it periodically at the gym!) Many member of the public beyond the neighborhood came and loved the atmosphere of the gym too, eager to know more about working out in such a great site.

You will notice that we have cleared everything out now, we had one last thing to do this morning, to take photographs of the posters, they too were a big hit and we loved having them in the windows of the gym.

I attach one image from the night for your enjoyment.

Friday night was perfect timing as now the weather has turned and the rain is coming, well hopefully for all of us!

All the best from the The Alhambra Team,

Lynn, Christoph, Erica and Zach
